PRACTICE MAKES PERFECT: THE SECRETS OF A GOOD GAME

"CUTTING STROKES OFF YOUR GAME IS WHAT IT'S ALL ABOUT. THE CELESTIAL PUTTER GOES A LONG WAY TO HELP THAT HAPPEN."

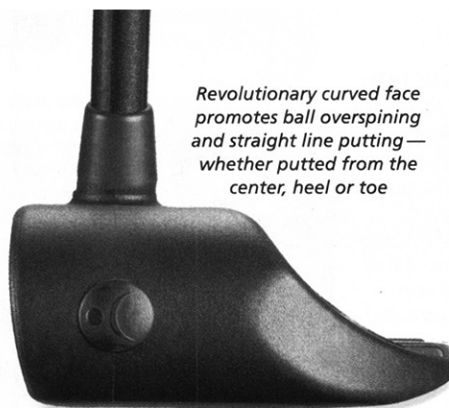

— Bob Quirk, PGA Teaching Professional, Harmon Golf

From the mind of a highly skilled engineer and golf-enthusiast, the Celestial .15 multi-layered putter creates instant overspin and straight-line putting to help you hone your short game. The putter's curved face forces your ball to roll straight. And with its lightweight graphite shaft, the Celestial .15 is face-balanced to keep the head stable through your entire swing. The Celestial .15 conforms to USGA rules and regulations. A Frontgate exclusive, it comes with a head cover and two balls. See frontgate.com for additional information. 34½" L x 3½" W.

From off the green, the putter's sole makes sure the face hits downward on the ball — forcing the ball to pop up in the air, with overspin, on a straight-line to the hole

Revolutionary curved face promotes ball overspinning and straight line putting — whether putted from the center, heel or toe

The Celestial .15 is face-balanced — keeping the putter's head stabilized throughout your golf stroke
